

- TASTE THE DIFFERENCE -

### MODEL B12V

This large-capacity batch freezer produces the highest quality ice cream, gelato, sorbet, Italian ice or sherbets. Mechanically simple and exceptionally dependable, this machine is perfect for gelato, custard and water ice shops.

### MODEL B24V

This high-capacity batch freezer is simple and efficient, making it perfect for gelato, custard and water ice shops.. Make large volumes of your own signature Gelato, Italian Ice, Sorbets and high or low overrun ice cream.

### The Electro Freeze Advantage

- **Cam Door latch** provides quick interior access
- **Exclusive Auger Design** gently blends, reducing agitation and maintains product quality and consistency.
- **Auger and Dispensing Head Design** provides excellent product extraction and less flavor overlap.
- **Superior Product Quality** is an Electro Freeze trademark unmatched frozen product quality through simple and effective design
- **Built-in Faucet** with flex hose for fast and easy cleaning
- **Digital timer** with audible alarm
- **Optional Variable Speed Overrun & Viscosity Control** Allows for precise control of viscosity and overrun to maximize your profits. Produces a consistent finished product and automatic shut off when the batch reaches the desired consistency.
- **Extra Large Discharge Chute & Oversized Feed Hopper** allows for quicker dispensing of product for overrun consistency& easier loading of ingredients.
- **Experience Tells** Electro Freeze has been manufacturing quality frozen treat machines since 1929. Superior engineering, product innovations, sturdy construction, quality craftsmanship and dependable performance are Electro Freeze hallmarks.
- **Superior Service Support** backed by a worldwide distributor network.

Made in the USA

Electro Freeze div. of H.C. Duke & Son, LLC

2116-8th Avenue, East Moline, Illinois 61244 USA

### Electrical

A dedicated electrical connection is required for both models. Manufactured to be permanently connected. See electrical chart for the proper requirement. Consult your local electrical codes for cord and receptacle specifications.

### Beater Motor

B12V, 3hp. (2.3kW)  
B24V, 5hp. (3.73kW)

### Refrigeration Systems

B12V, 2.5hp. (1.9kW) R404a.  
B24V, 3.5hp. (2.61kW) R404a.

### Air/Water Cooled

3" (7.6 cm) is required on both side panels for proper air circulation.

### Water Cooled

Water pressure between 35-140 psig (241-965 kPa) for proper operation.

### Freezing Cylinder Capacity:

B12V, 14 quarts (13.25 liters)  
B24V, 25 quarts (23.65 liters)
